
Super POSS

Release 5.31
Client Install for Netserver systems

09/09/99
Version 1.0

Super POSS 5.31 for Windows™ Systems

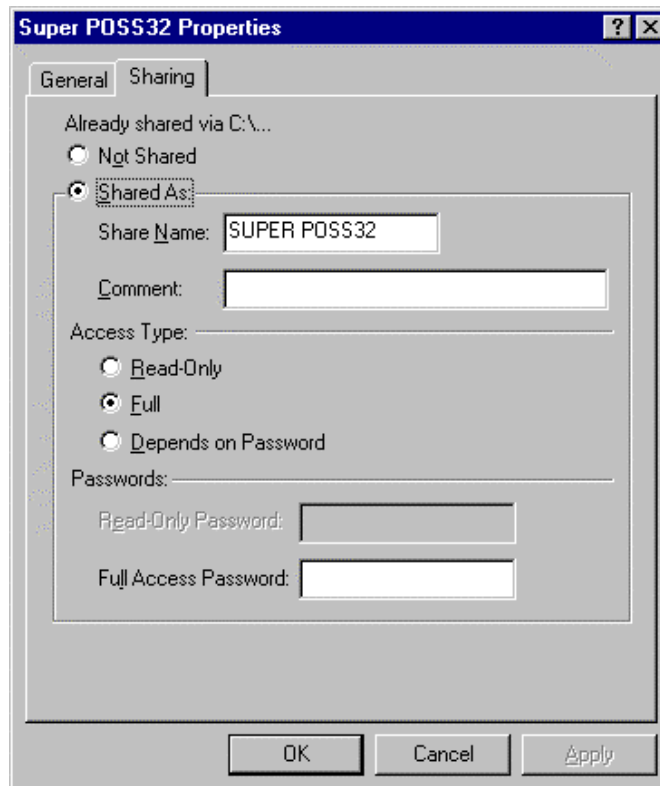

Client Installation Instructions

Before you begin...

- Make sure that your system meets all of the requirements necessary to run this version of Super POSS.**
- Make sure that you have a network connection between the Server and the Client.**
 - ➔ Note: See your System Administrator for installation.

Super POSS Client Installation (Server PC)

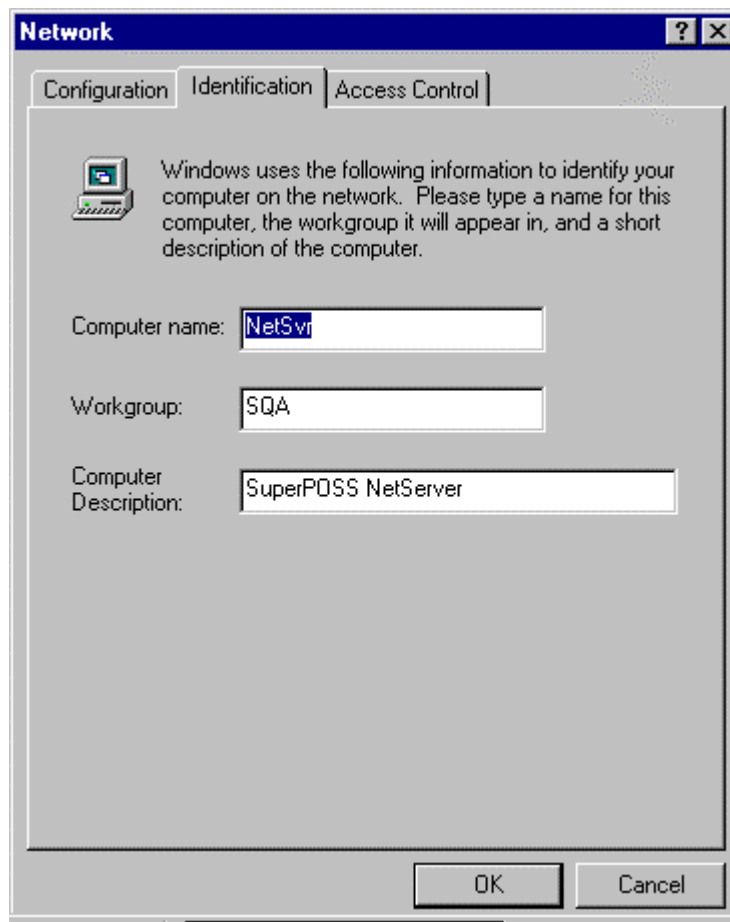

- On the Server PC, share your Super POSS directory.**
 - Double-click on the My Computer icon.
 - Double-click on the drive where Super POSS is installed(*usually Drive C*)
 - Double click on the folder where Super POSS is install (*usually Program Files*)
 - Right-click on the Super POSS32 folder and select Sharing.

- Click on the Shared As tab and make sure that the Share Name is Super POSS32.
- Click on the Full Access. (Your version of Windows may require more steps to allow full access to users)
- Click the Apply button and then OK
- ➔ Note: If you have any trouble with Sharing procedures, contact your Network Administrator.

❑ **Find the Server's system name and IP address.**

- Click on the Start button and select Settings, and then Control Panel.
- Double-click the Network icon, and then select the Identification tab it will list the Computer name and workgroup name.

- Write down the Computer Name and then click the Cancel button and return to the desktop and close the Control Panel window.
- Click on the Start button again, and select Run.
- Now type “ping” and then the Computer name. The Screen display replay from and then a number displayed like (Example 127.0.0.1) this is your **IP address**. Write the **IP address** down.
- Close all open windows.

- ➔ Note: You may want to ask your administrator for assistance in case you are unsure about the procedure.

Super POSS Client Installation (*Client PC*)

❑ *Map a drive from the Server to the Client PC.*

- From the desktop, double-click on the Network Neighborhood icon and double-click on the Computer name of the Server's PC.
- Select the Super POSS32 shared directory, right click and select the Map Network Drive. Make sure the box to the left of the Reconnect at Logon is checked if not click on the box and then click OK.

❑ *Run Client Setup.*

- Click on the My Computer icon, and open the mapped Super POSS32 drive.
- Double-click on the Client Setup folder, and click on the Setup. Exe program.

- Read and acknowledge (by clicking the appropriate button) the opening screen, license agreement, and copyright/trademark screen.
- The Next screen will prompt you to enter the Server's **IP address** (This is the result of the "Ping" command).

- Press Next to continue. The install program will then setup your system

- Select Finish to complete the Client Install. After you are finished, close all windows and reboot your system. .

❑ Run Super POSS from the Client PC.

- From the Client PC's desktop, open the Super POSS32 Client folder that was just created from the installation and make sure that MEI Logger, MEI Command Prompt, and the Super POSS32 Login are all present before beginning.
- Note: If you have purchased the FM option from MEI, the FM Remote Maintenance icon should be present. Unless the FM equipment is connected to the client computer you will not be able to enable the FMs. Contact MEI Technical Support for more information.
- Click on the Super POSS Login icon and log in as usual.

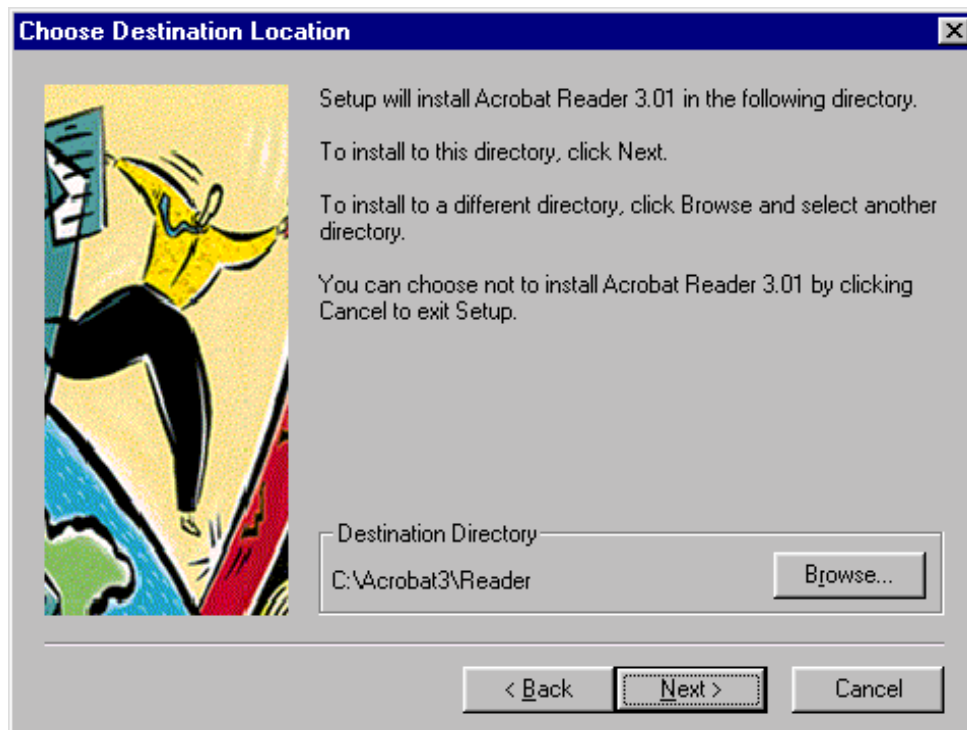

Installing the on-line manual for the client

- 1) Click on the My Computer icon, and open the mapped Super POSS32 drive. Double-click on the Acrobat folder, and click on the Setup.exe program.

This starts the Acrobat installation procedure.

- 2) Read and acknowledge (by clicking the appropriate button) the opening screen and license agreement.

The next screen asks you to where you want to install Reader:

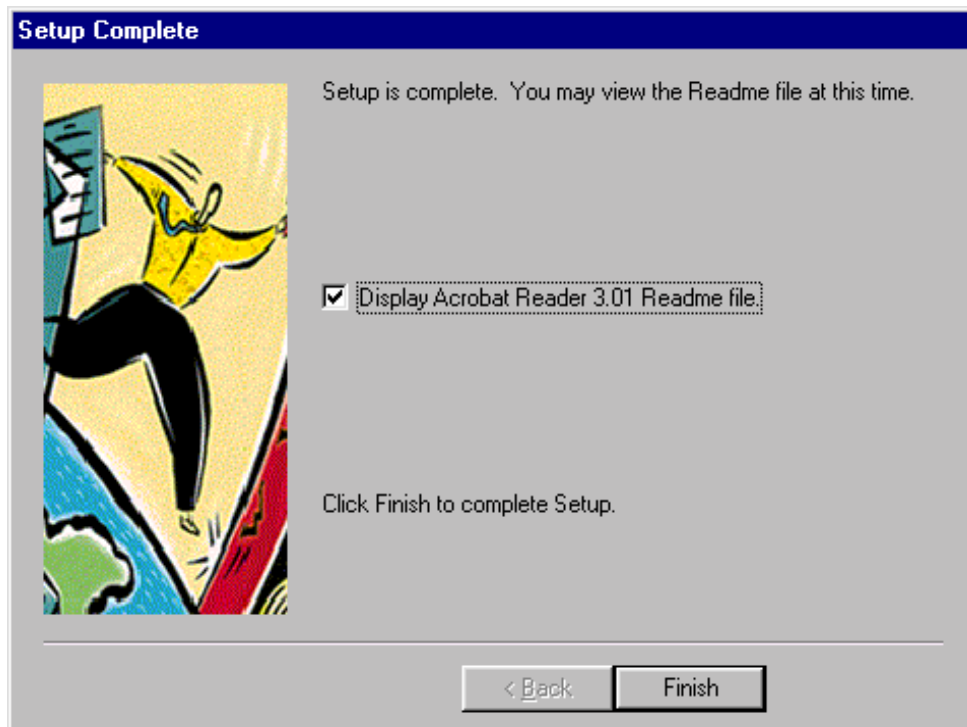

- 3) Specify the name of the folder in which you want to install Acrobat.

By default, the wizard suggests **C:\Acrobat\Reader**. However, you can use the Browse button to locate and designate another folder if you wish.

When you have specified the desired destination folder, click Next.

The installation wizard decompresses and installs the Acrobat files in the specified folder. Then it displays this window:

- 4) Use this window to specify whether or not you want to read the Acrobat Readme file next. If you decide not to read it now, you can always go back and read it at your leisure later.

Using your on-line manual

How to open your on-line manual

1. Open the Super POSS on-line manual, (this will automatically open the adobe acrobat reader).

Use the Zoom tool to make text larger or smaller:

1. To adjust the page of the manual to a larger or smaller size go to 'View' on the tool bar.
2. Click on 'zoom to'.
3. Then a window pops up that says magnification.
4. Click on the drop down arrow next to that box to select how large or small you want the view to be. (100% is normal size, to make it larger go to a bigger number, like 125%. To make it smaller go to a smaller number, like 75%).
5. Once you have selected the size you want click 'OK'.

If you would like to learn other ways to zoom go to the help option on the tool bar.

Click on the reader on-line guide. When the screen opens to the first page of the manual, then click on viewing PDF documents. On the next page that it takes you to click on any of the options you want to know about. *(You may not have a web browser so the last section may not apply)*

Use the Find tool to search for words or phrases in your manual

1. When viewing the Super POSS manual to search for a word or group of words go to the find button (symbolized by a pair of binoculars).
2. Type in what you are looking for and click on find.

How to print from the Super POSS manual

(You must have a printer in order to print)

To print the entire manual (830 pages):

1. Go to the 'File' heading on your toolbar.
2. Go to 'Print' and click on it.
3. If you wish to print the whole manual click on 'ALL' and then click 'OK'.

Your manual should then print.

To print the current page you are on:

1. Go to the 'File' heading on your toolbar.
2. Go to 'Print' and click on it.
3. Click on 'Current page' and then click 'OK'.

To print a section (chapter) of the manual:

1. First you must find out what pages you want printed.
2. The page numbers are displayed at the bottom left of the document Window.
3. Go to the 'File' heading on your toolbar.
4. Go to 'Print' and click on it.
5. Click on 'Page'
6. Click in the box that says 'From' and type in the page number you want to be the first page printed.
7. Click in the box that says 'To' and type in the page number of the last page you want to be printed.
8. Then click the 'OK'.
